ThermCAM-80

Overview

The compact design of the ThermCAM-80 enables the integration of the camera into compact process applications, while the durable and robust housing guarantees reliability even in most harsh industrial environments. The ThermCAM-80 can be installed with an optional IP65 enclosure with air purge unit for additional protection in harsh industrial environments where ambient temperatures exceed ~50°C.

The built-in 100M-bit ethernet allows the camera to be connected to the system for high speed data transmission to InfraView™ software for further analysis.

Optics Variants

ThermCam-80 comes with standard 5.56mm lens. The table and picture show the correlation between the measurement distance and the size of the measurement fields.

Measurement Field (HFOV x VFOV)	Distance of object	Width (m)	Height (m)	Pixel WxH (mm)
28° x 28° (FL = 5.56 mm)	1 M	0.49	0.49	6.23
	5 M	2.44	2.44	31.17
	10 M	4.89	4.89	62.13

Note : Other lens options are also available as per application requirements.

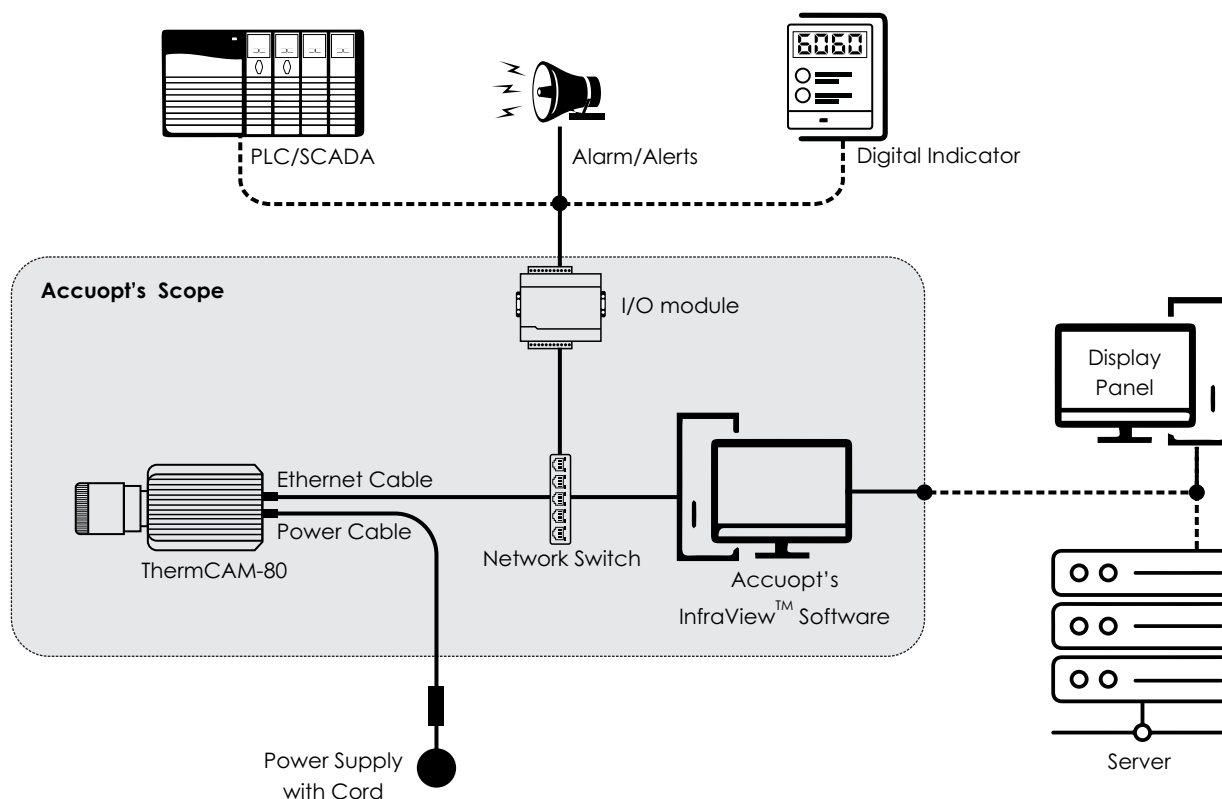

SYSTEM CONFIGURATION

AccuOpt thermal imagers offer several configuration options.

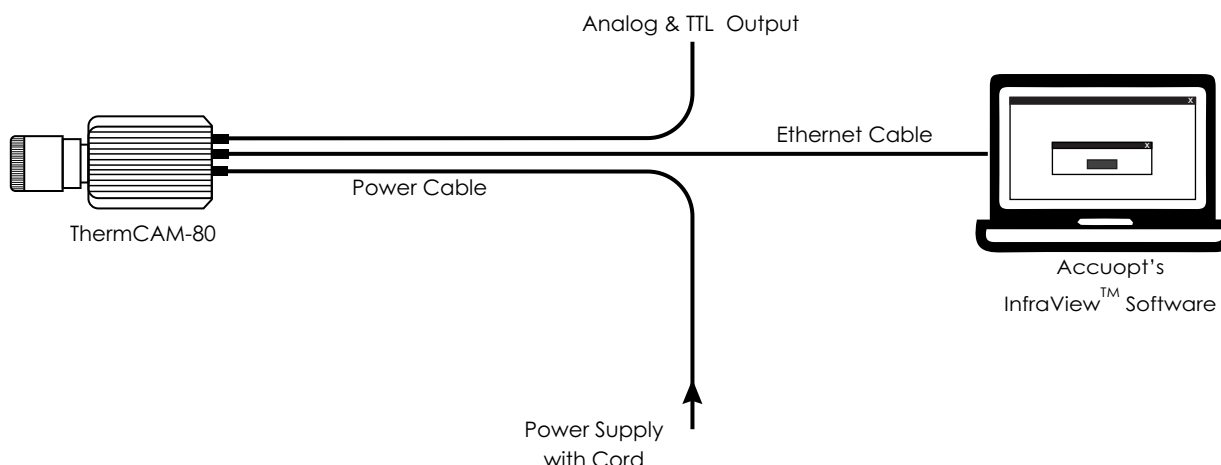

ThermCAM-80 Over Network

The system can be set up by connecting the camera directly to a dedicated computer using Ethernet connection which can be extended for remote access/intranet. Also camera can be paired with a network device (switch) which can be further connected with I/O module to get alarm/alerts, analog/digital output for digital indicator and PLC/SCADA systems.

ThermCAM-80 Standalone System

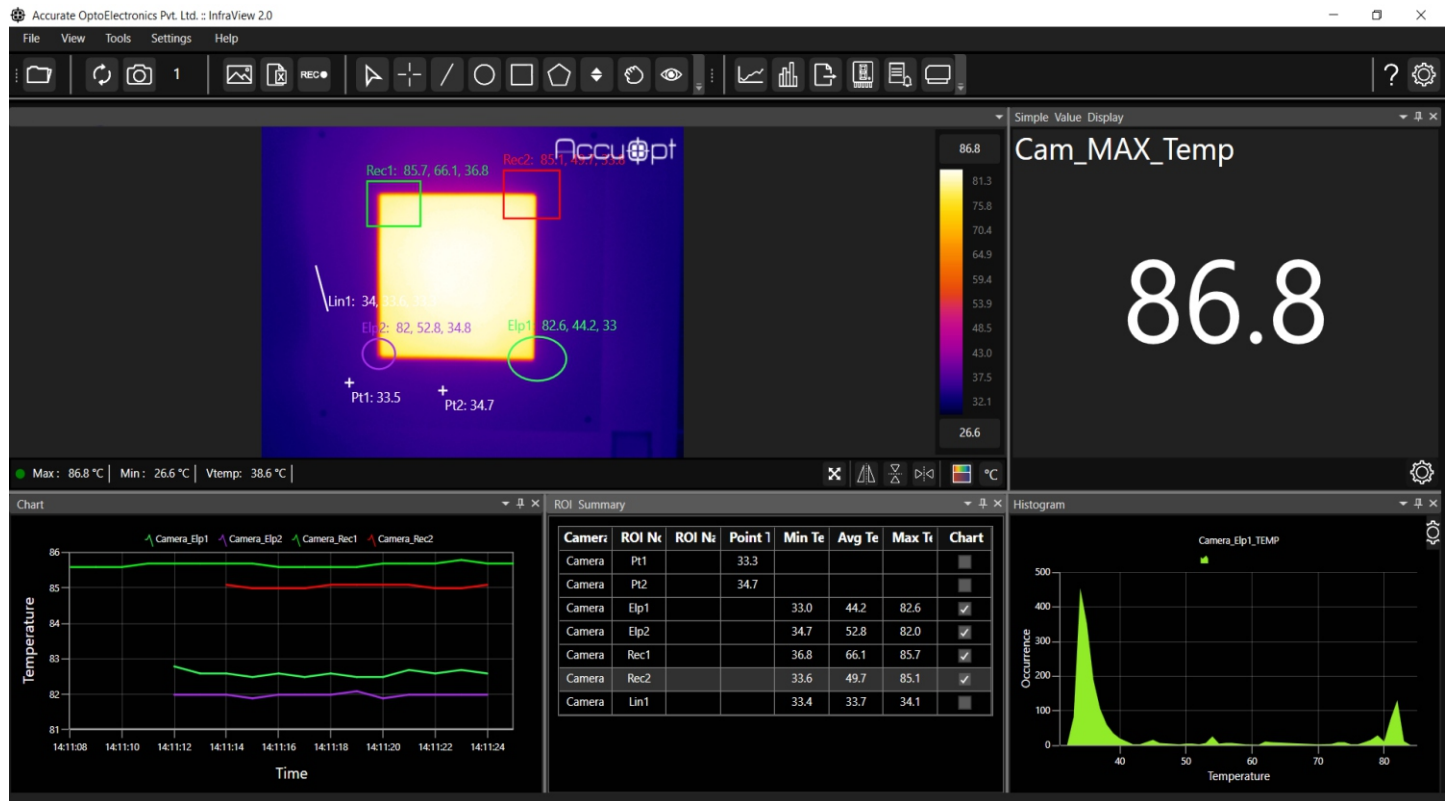

Additionally, the camera can be used with a desktop PC or with a laptop for a standalone monitoring system.

INFRAVIEW™ SOFTWARE

ThermCAM-80 comes with thermal image processing software InfraView™ at the core of a thermal imaging system which is Windows based Software with many useful features.

AccuOpt's InfraView™ software allows you to stream thermal video on a PC, record thermal video, Draw ROI (Region Of Interest) in various shapes and sizes. It allows computed temperatures to be sent out via I/O card which in turn can be connected to PLCs.

SALIENT FEATURE LIST FOR INFRAVIEW™ SOFTWARE
